Hysen's Health Clinic has been operating from this location since 1969.

Both practitioners at Hysen's Health Clinic are fully accredited members of the Australian Natural Therapists Association. www.anta.com.au

Services provided at Hysen's Health Clinic are eligible for rebates by participating Health Funds.

Hysen's Health Clinic is a non-medical, traditional medicine clinic. We only use natural methods of treatment and do not utilise medical drugs or pharmaceutical medicines.

We provide holistic professional advice and treatments for an inclusive range of conditions according to the principles of [Classical Naturopathy](#) and Traditional Medicine utilising: nutritional medicine, [herbal medicine](#) and [homeopathic medicine](#).

Where needed, we work on an integrative basis with practitioners of Modern Medicine, to ensure the best possible treatment outcome for our clients.

[Acupuncture](#), cupping, moxa, structural therapy, soft tissue manipulation and other physical treatments are provided for a wide range of chronic and acute physiological imbalances and musculo-skeletal disorders.

We use acupuncture according to the Chinese principles of the "superior doctor", which utilises very fine needles and treats acupuncture points according to the location of the problem and the time of the day and the day of the month; this enables the use a minimum number of needles for maximum therapeutic effect.

The range of physical treatments provided includes soft tissue manipulation, structural therapy by means of neuro-muscular correction and structural rebalancing and realignment, heat treatment and other forms of electrotherapy.

We also provide post-surgical rehabilitation treatments.

Please note: In order to optimise safety and efficacy, new clients attending for acupuncture and/or structural therapy treatments, will be provided with an extended initial consultation to document all aspects of their medical history and health prior to the commencement of treatment.

Our on-site dispensary stocks a wide range of herbal and homeopathic medicines; enabling us to fulfil herbal and homeopathic prescription at the time of an appointment.

We source the highest quality products from a wide range of manufacturers to optimise the efficacy of our remedies and to provide the best value for money for our clients.

We do not participate in multi-level sales, nor do we involve ourselves with companies that provide directly imported goods that have not been approved by the Australian Therapeutic Goods Administration.

Please note: All medicines are specifically selected and/or formulated to suit the individual needs of our clients. As such we do not provide over-the-counter sales to the public and will only supply medicines to our current clients.
